### SOLID FOR BABCOCK.

How is this? The Kingman Democrat in its issue of yesterday announces that Kingman county is solid for Babcock, solid for Babcock for state senator, you understand, that is, solid for Babcock as the Democratic candidate for state senator from the counties of Kingman and Sedgwick. Who Mr. bly a very superior gentleman it the Democrat is not mistaken in its aunonneement that Kingman county is solid for him without regard to party. For a Democrat he must be an extraordinary individual, a straddler from away back who knows no north no south, no resubmission no whisky, or prohibition, in short a negative patriot of spreading dimensions. But is this bouncing Babcock boom in accordance with the pre-arranged underderstanding with this end of the Democratic line? If it is we have been wilfully and outrageonsly missled. Where, in this Babcock move, has any hole been left for the Sedgwick county mugwumps and their bargain with the Sedgwick county Democracy? These questions may seem impertment and very likely it is none of our busicrats of Sedgwick county and the men | The governor called the meeting t ty whose head shows such a prefer-ence for illigitimate babies, and all to beat plain farmer John Kelly, but as a

head of the Tom Hendricks calibre—a man who resigned his pew in a church because the paster preached a loyal sermon, who opposed the war at every step, who has been at the constitution, who declared in a speech in the senate that Lincoln should be driven out of the White House with switches—to a man like Logan, who fought nobly through the war, and who is regarded on all sides as the greatest volunteer general of that war, is utterly ridiculous.

The Republican bolters, or "mug-wamps and dudes," come in for their share of criticism in the spicy inter-view. Curtis and Schurz are handled without gloves. "I can't recall the time," he says, "that Schurz ever gratuitously made a speech for a voluntary contribution to his party. His tariff rates per night were exceedingly large." This is severe, but true. Bel-ford described the bolters as "bandbox statesmen," a name which is bound to stick.—Commonwealth.
